**ACTIVE INGREDIENTS:**

Thiamethoxam:
 neonicotinoid) 10 g/kg
 (Z) 9-Tricosene 1 g/kg

AGITA® is a ready-to-use granular bait suitable for use in stables, poultry houses, pigsties, dairies and other farm buildings as well as industrial buildings where flies are a nuisance and health hazard.

WARNINGS:

Store in original container and do not keep or apply where food or feed may become contaminated. Toxic to bees. Keep out of reach of children, uninformed persons and animals. Keep container tightly closed between use to maintain strength of attractant.

PRECAUTIONS:

Wear rubber gloves when applying. In case of accidental contact, remove contaminated clothing and wash skin thoroughly with soap and water. Do not eat, drink or smoke during application. Destroy empty container by perforation and flattening. Never re-use empty container for any other purpose. Prevent contamination of feed, feedstuffs, eating utensils and drinking water.

DIRECTIONS FOR USE:

USE ONLY AS DIRECTED.

AGITA should only be applied as a dry bait.

- 1) Place as a very thin layer in shallow containers where flies usually congregate in places inaccessible to children and animals.
- 2) Scatter AGITA very lightly using 200 g per 100 m² of ground surface on areas frequented by flies, e.g. in and around animal housing, floors, alleyways, windowsills, manure heaps, etc. Scatter AGITA in such a way that animals will not come in contact with granules and their feed and drinking water does not become contaminated.

Repeat when the bait has been eaten, covered with dust or when the old bait has dissolved or dispersed.

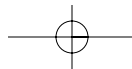

Registration Holder / Registrasiehouer:

Novartis South Africa (Pty) Ltd / (Edms) Bpk

© = Registered trademark of / Geregistreeerde handelsmerk van:
 Novartis AG, Basel, Switzerland

Contains a stomach and contact poison as well as a fly sex attractant
 Bevat 'n maag- en kontakkinsekdoder asook 'n vlieg geslagslokmiddel

**AKTIEWE BESTANDEDELE:**

Tiametoksam:
 (neonikotinoïed) 10 g/kg
 (Z) 9-Trikosien 1 g/kg

AGITA® is 'n gereed-om-te gebruik granulêre lokaas geskik vir gebruik in stalle, pluimveehuise, varkhokke, melkerye en ander plaas geboue asook in industriële geboue waar vlieë 'n oorlas en gesondheidsgevaar is.

WAARSKUWINGS:

Bewaar in oorspronklike houer en moet nie berg of aanwend waar voedsel of voer daarmee besoedel kan word nie. Giftig vir bye. Hou buite die bereik van kinders, oningeligte persone en diere. Houer moet dig toegemaak word tussen gebruik om die lokmiddelsterkte te bewaar.

VOORSORGMATREËLS:

Dra rubberhandskoene tydens toediening. Na toevallige kontak verwyder besoelede klere en was vel deeglik met seep en water. Moet nie eet, drink of rook tydens toediening nie. Vernietig leë houer dadelik deur dit te perforeer en plat te slaan. Moet leë houer nooit vir enige ander doel hergebruik nie. Voorkom besoedeling van voedsel, voer, eetgerei en drinkwater.

GEBRUIKSAANWYSINGS:

GEBRUIK SLEGS SOOS AANGEDUI.

AGITA moet slegs gebruik word as 'n droë lokaas

- 1) Plaas as 'n dun lagie in vlak houers waar vlieë saamdrom maar ontoeganklik vir kinders en diere.
- 2) Strooi AGITA liggies teen 200 g per 100 m² grondoppervlakte in vliegbesette areas byvoorbeeld in en om dierehokke, vloere, gange, vensterbanke, mishope, ens. Strooi AGITA op so 'n wyse dat die diere nie met korrels in aanraking kom en hul voer en drinkwater besoedel word nie. Herhaal toediening soos nodig en vervang sodra dit met stof of dooie vlieë bedek is of sodra die lokaas opgelos of verwyder is.
